

READY FOR THE NEXT STEP

Introducing the Precious Metals Overhaul Kits. With four cost-effective and simple-to-order overhaul options, Precious Metals In-Frame Overhaul Kits come in four levels: Bronze, Silver, Gold and Platinum. Each succeeding level offers more value.

BRONZE

- Low-cost repair option
- Includes value-add components, such as Cat[®] oil and fuel filters
- Includes components that you might not think of replacing such as exhaust sleeves and exhaust manifold studs
- No core charge

SILVER

- A basic in-frame overhaul, most like competitive in-frame overhaul kits
- Builds on the Bronze kit
- No core charge

GOLD

- A basic in-frame overhaul
- Includes the core parts from the Bronze kit and the added bonus of Cat Reman cylinder pack assemblies
 - Reman cylinder packs are beneficial because the rods, pistons, rings and liners come preassembled, saving four to six hours of labor compared with the Silver level kit

PLATINUM

- Includes the components from the Gold kit, plus:
 - Cat Reman cylinder head assembly
 - Cat Reman fuel injectors
 - Cat Reman water pump
 - Cat Reman oil pump
- Optimizes performance and fuel economy
- Maximizes the built-in second or third life of your engine

STEP 1: Select your engine model.

STEP 2: Select the engine serial number prefix and range of your engine.

STEP 3: Determine horsepower range.

STEP 4: Determine which level kit you need, i.e., Bronze, Silver, Gold, Platinum.

STEP 5: Validate that the engine arrangement is covered.

STEP 6: Order the corresponding part number from your local Cat authorized dealer.

* Difference in pistons; Confirm piston part number compatibility with dealer when ordering the Silver, Gold, or Platinum Kits.

^ Kit ships with cylinder packs for normal load applications. High load applications (GVWR greater than 140,000 lbs.) should utilize high load kit or replace top ring with 247-6130. Refer to SEBD6832 for top ring reference.

^^ High load application kit (GVWR greater than 140,000 lbs.).
